Corporate message

Touei Housing entered the home sales market in the Tokyo metropolitan area in 1979, since when home sales has remained our main line of business and has continued to expand.

At Touei Housing we have worked constantly to build a solid business base for the Company as a comprehensive provider of homes and related services. We have devoted considerable efforts over the years to meeting the need for affordable quality housing, as well as to expanding the scope of our business.

We employ our proprietary panel construction techniques to build homes that are long-lived and strongly earthquake-resistant, and our rigorous quality control system — made possible by our Groupwide integrated production — enables us to offer safe homes that have received performance certification in the fields of both design and construction. We do not simply build homes: our value-added services involve the proposal of new lifestyles, with customer satisfaction assured by thoughtful after-sales support services.

We have sold a cumulative total of more than 38,000 homes since the Company started in business, and are proud of our contribution to the creation of a vibrant and affluent society through the provision of homes that offer a good quality of life.

Going forward, we will endeavor to maintain a constant grasp of changes in our operating environment, including economic fluctuations that exert a major impact on the housing market, and changes in the demographics of our target customer sector as well as home purchaser preferences. We are expanding the application of our expertise in design and construction from predesigned houses into the field of custom-made homes. We will be focusing our management resources principally on the Tokyo metropolitan region, where the level of demand is high, with the aim of offering affordable quality homes to even more consumers.

At Touei Housing, to ensure that the Company is a good corporate citizen and a trusted partner to our shareholders and other stakeholders, we are working constantly to enhance the efficiency, transparency, and soundness of our business. To this end, we are working to establish a strong business base and a flexible organizational structure.
